Dear Members of the Student Representative Assembly,

Please find attached the revamped policy on Student Engagement & Retention. I would like to give huge congratulations to for their tireless work on this report. They conducted focus groups, wrote the policy, and edited the policy. Because of the degree of changes made to the policy, the committee has recommended that the SRA:

1) Rescind the original policy.
2) Approve the circulated policy and its associated maroon paper.

This policy builds on the findings of the Your City Survey 2.0 to provide clear areas of concern for students. These concerns range from deficiencies in public transit to a lack of awareness of opportunities available in the city. The recommendations, such as greater integration of students in municipal bodies, the MSU, City of Hamilton, and McMaster University, will allow for continued improvement of the student experience.

If you have any questions, please do not hesitate to ask!

Regards,

Saad Syed
SRA External Affairs Commissioner
McMaster Students Union
