PROGRESS ON YEAR PLAN

We have been reaching out to our constituents during SRA Office Hours, and to our peers to increase awareness of the MSU. This is especially relevant now with the spotlight on the MSU because of MSU Presidential elections.

Rather than an SRA Day, we have decided to collaborate with the Kinesiology Society on an event this term. We are currently in discussion and the early planning stages of the event. January is a busy time for both parties, so we are setting a meeting time for February. We are discussing the potential of combining a Kinesiology Town Hall and SRA Kinesiology Day.

Additionally, the Career Experience Day has been modified to be a series of guest lectures at McMaster University for Kinesiology students. There have been great interest in Chiropractors and Registered Massage Therapist sessions that have already taken place last semester. Consequently, students have expressed further interest and have requested for an Osteopathy information session.

The Kinesiology Common Space has been discussed with the Kinesiology Department. Specifically, Dr. Martin Gibala the Chair of the Kinesiology Department. Unfortunately, obtaining student space in IWC may not be feasible at this time. However, the Kinesiology President Jenny Mahendran is looking for other venues to host the Kinesiology Common Space.

We are in discussion with the Kinesiology Society on establishing a way to recognize student contributions. We are looking at having a Student Awards Reception highlighting the work Kinesiology students have done within the McMaster and Hamilton community.
UPCOMING EVENTS, PROJECTS & ACTIVITIES

Since the last report period, progress has been slow because of exams and the presidential elections. However, we are still making good progress on our goals!

Please feel free to contact me if you have any questions.

Best,

Natacha Ngo
