PROGRESS ON YEAR PLAN

- I have begun building a relationship with the MUNSS president.
- I have been available throughout the summer to discuss student concerns regarding the nursing program, and changes they would like to see.
- I created a feedback form regarding Thode Makerspace where students contributed their ideas, most of which were approved for this space.

UPCOMING EVENTS, PROJECTS & ACTIVITIES

- Collaborating the the Nursing Welcome Week Planners to provide SRA related programming during welcome week.
- Creating a feedback form concerning general inquiries and ideas for the year.
- Creating a plan of action regarding how to improve student engagement for the following year.

CURRENT CHALLENGES

- Communication with faculty and nursing facilities is a big challenge as the School of Nursing’s hours are shortened during the summer.
