Happy Thursday SRA Members,

In December of 2017, the Internal Governance Committee and I developed a survey to be distributed to all SRA Members gauging their current working conditions and schedule within their positions as representatives. We were able to collect 20 responses overall and the survey was well filled by everyone who did participate.

The data was then compiled into a job description presented for the first time at January training. The main point of reference was obviously any tasks outlined in the bylaws on constituent outreach and committees. After that, we used the responses from the questions to develop the sections on “Knowledge, Skills and Abilities” and the “General Scope of Duties”

Since then it has undergone review by the Internal Governance Committee, Helen, Preethi and other relevant stakeholders.

With the creation of this document we hope that this will ease the transition for new SRA Members going forward and provide information for future SRA hopefuls.
