From the office of the...

Kinesiology Caucus

TO: Members of the Student Representative Assembly
FROM: Ushwin Emmanuel, SRA Kinesiology Caucus Leader
SUBJECT: SRA 18M Report
DATE: January 20th, 2019

PROGRESS ON YEAR PLAN

Dear Assembly,

I hope that with the start of the new year you are all doing well and had a wonderful winter break! Now that the new semester year is being kicked into high gear there are many platform points that I have been working on the past semester that I really want to start focusing on. Below are the objectives that I have been tackling so far after the start of the new year.

Objective #2: Student space for Kinesiology Students

With David now on the caucus he has helped tremendously in forming a plan that will get maximum constituent outreach. We have already sent out emails to the professors asking them to use their platform to get students to fill out the survey. We are still awaiting responses from some professors, but if not we hope to meet with them during office hours to see if they are able to help out in any other way. We also soon hope to do another cookies and coffee event to increase the exposure and gain feedback.

Objective #5: Update social media and increase constituent exposure.

After deciding that Instagram would be the best method of outreach we have started an Instagram account for our caucus. We have yet to do a full media push to gain followers since we are still waiting for the graphics to come in, but we hope that by the end of the month we can use this platform to reach our constituents in a more effective manor.

Objective #6: Facilitate transition with the incoming caucus.

Throughout the years there has been a lot of miscommunication between past kinesiology caucuses. This has led to ineffective passing down of information and work being lost between the years. We have thus created a drive in which we have started to compile our documents and work, so that in future years they may look back to this information for guidance.

PAST EVENTS, PROJECTS & ACTIVITIES

There has not been many past events or activities other than holding office hours in conjunction with the Kinesiology Society and attending their meeting regularly.

UPCOMING EVENTS, PROJECTS & ACTIVITIES

We hope to soon run an event to increase the outreach of the Kinesiology lounge survey and to increase our follower account on Instagram once we have the graphics.

Our consultation process for the Kinesiology Alumni Mentorship Program is set to begin within the next few weeks. We aim to collaborate with the Director for Experiential Learning & Business Development in the Department of Kinesiology, Office of Graduate Studies and the Alumni Association to seek guidance on how to develop this program. We welcome feedback from fellow members who are aware of a similar program in their respective academic faculties.

CURRENT CHALLENGES

Our current challenges at this point is getting professors or TA's on board to help get the maximum amount responses for our survey. How we want to tackle this is to meet in person with whichever professors that have not replied to our email and see if we can use their platforms to aid our cause.

SUCSESSES

With David being elected at the end of last semester, he has learned quite quickly and his transition into his new role has gone smoothly.

Sincerely,

Ushwin Emmanuel
