**BUSINESS**

**1. Clubs De-ratification**

**Moved** by Marando, **seconded** by Sinnige that the Assembly de-ratify the MSU Club - Dominion Society for misrepresentation of important information to the SRA during the club ratification process.

- Marando stated that while a statement was already released and circulated, they would like to reiterate that when the club was asked if there were any connections to external groups the club said no. Marando pointed out that this was statement was false and urged the Assembly to de-ratify this club.
- Lee ceded to Ryan Tse – Tse asked if the Assembly was voting on the fact that the club misrepresented themselves or for violating the policy on discrimination as it should be made clear.
- Marando stated that the club and members of the club show reasonable ties to discriminatory behaviour and the misrepresentation was serious.

- Acri stated that they were sure the Assembly were all on the same page, and that since new evidence came to light, the Assembly made a mistake.
- Pagnello wanted to point out that it was important to note that in the application and mission statements, and proposed events were not explicitly as bad as the screenshots brought to light. This was problematic and that the MSU needs to be more cautious and stringent of whom they give resources to.
- Hu stated that they think it says a lot more about how the MSU goes about ratifying clubs with just the information presented. They felt that if there were actual adjustments in the policy on how the clubs were ratified it would solidify why clubs should or shouldn't be without personal opinion or bias.
