This week was a very good week for student lobbying in Ontario. The provincial government introduced several amendments, including $10 million to support greater PSE access, along with $3 million to support student financial aid. Included in the aid reforms is the province-wide Quadrennium. The MSU has been approached by two main reasons: The building would hopefully be accompanied by the return of both a McMaster Men’s and Women’s hockey team to the GTA, Skate’s Edge hopes to build Hamilton into a hockey rink on or near the McMaster University campus. The building would help the university to compete with its neighboring campuses in the city; a current priority for the City of Hamilton. Furthermore, it has been proposed by the MSU to help facilitate the construction of a rink, while simultaneously providing cultural incentives for graduate retention in the city, as well as providing leisure and social opportunities. It is a major undertaking that still has many factors left to be concluded. The current proposal depends on whether students would be interested in paying a portion of the costs of the facility and if the proposed site is the right field for the project on the MSU website, where interested parties.

MSU negotiates with Calgary-based Skate’s Edge for campus arena

With the Mats in Calgary, we found that our campus arena may be just as popular as one in the US or Canada. As a result, companies nationwide have tailored their offerings towards this market and hockey has become an even more potent business. Early in December, the McMaster Students Union (MSU) began discussions with Skate’s Edge, a sporting apparel company based in Calgary. Although titles like entrepreneurs, Skate’s Edge (SE) has requested the MSU’s assistance with the building of a hockey rink on or near the McMaster University campus. The building would help the university compete with its neighboring campuses in the city, as well as providing leisure and social opportunities. It is a major undertaking that still has many factors left to be concluded. The current proposal depends on whether students would be interested in paying a portion of the costs of the facility and if the proposed site is the right field for the project on the MSU website, where interested parties.

HOCKEY NIGHT
IN HAMILTON

The 2009-2010 Board of Directors is pleased to announce the following changes to our campus arena.

- We will no longer be disclosing our financial information, including audits, or any other documents containing the word “auditor”. We have determined that audits are a collateral expense of printing. We insist on a return to the term ‘Frosh Week’, along with the excessive aren’t too useful. It’s like a snow day on Saturday, pretty useless. - Move Family Day – it is a made up secondary education in general.

- The Student Representative Assembly (SRA) will be disbanded. The energy associated with keeping the room lit and the student leaders awake is ridiculous.
- MacGreen is not nearly militant enough to meet our growing eco-concerns. ThumloSkin launches Summer 2010, MacGreen will be the newest wing of the Sea Shepard Conservation Society. Hopefully through this action, the MSU logo will appear on Whole Foods.
- We will no longer be printing The Silhouette. The consumption of paper has been deemed grossly excessive. However, we will retain our twenty cent stamp and employ them for grounds maintenance.
- The Student Representative Assembly (SRA) will be disbanded. The energy associated with keeping the room lit and the student leaders awake is ridiculous. We have determined that auditing is a collateral expense of printing. We insist on a return to the term ‘Frosh Week’. In lieu of the 100,000 condoms provided by the Student Health Association, we provide vasectomies.
- We will no longer be publishing ‘The Silhouette’. The consumption of paper has been deemed grossly excessive. However, we will retain our twenty cent stamp and employ them for grounds maintenance.
- We will no longer be printing ‘The Silhouette’. The consumption of paper has been deemed grossly excessive. However, we will retain our twenty cent stamp and employ them for grounds maintenance.
